Title page designs

Twenty-five alternatives for the first page of the miniVivisection manual, one per page. To use one, copy its drawing into `chapters/00_title.tex`.

	Design	Color	Shot	V°	Idea
1	**Blue band and screenshot**	✓	✓		the current title page
2	**Black band, grayscale**		✓		design 1 without color, for printing
3	**Typographic, black and white**				Swiss: type, rules and white space only
4	**The V° mark, large**	✓		✓	the mark as the cover's picture
5	**The V° mark on blue**	✓		✓	reversed, the mark bleeding off the page
6	**The V° mark in outline**			✓	line only, black and white
7	**The toolbar button**	✓		✓	the V° button on Grasshopper's toolbar, enlarged
8	**Color strip with the mark**	✓	✓	✓	a blue strip on the left, a screenshot on the right
9	**Screenshot, full bleed**	✓	✓		the picture first, the title on a dark band
10	**Mosaic of screenshots**	✓	✓		all sixteen screenshots as a wall
11	**Mosaic, grayscale**		✓		the wall without color
12	**Name dot**	✓			the title in a name dot, pointing at a curve
13	**Rhino viewport**	✓			lesson 01's bow tie, drawn in a Top view
14	**Code editor**	✓			the title as a paused script, dark theme
15	**Blueprint**	✓		✓	the mark as a technical drawing, with a title block
16	**Anatomical plate**	✓		✓	a vivisection: the mark laid open, like an engraving
	Fusions: the outlined V° (6) in the typographic layout (3)				
17	**Outlined V°, lower right**			✓	the mark between the title and the footer
18	**Behind the type, bleeding**			✓	a huge light outline under the type
19	**Blue V, orange °**	✓		✓	the outline in the manual's two colors
20	**V° on top, type below**			✓	the order turned round
21	**Filled light gray, outlined**			✓	a gray body under the line
22	**On the grid**			✓	the layout's columns and baselines shown
23	**Reversed**			✓	white on black
24	**Only the ° in orange**	✓		✓	one color, one spot
25	**Inline lettering**			✓	a white line inside a black one

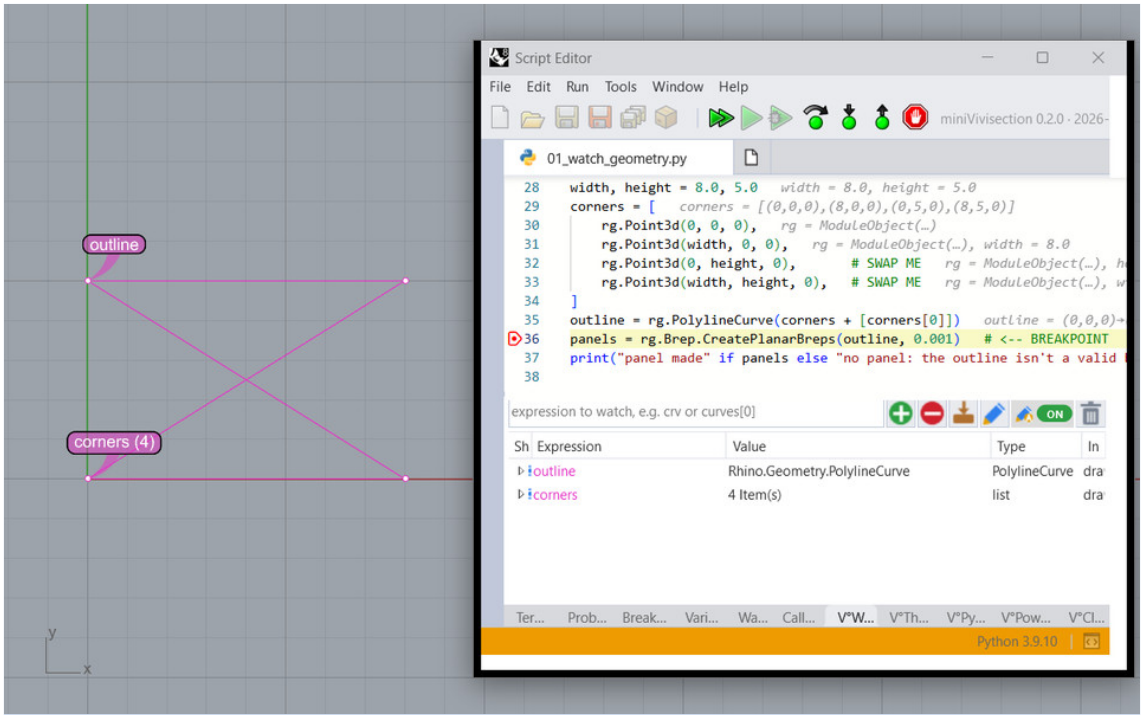

Shot: with a screenshot. V°: the V° mark as the main element, in the font of the V° button on Grasshopper's toolbar. The grayscale designs (2, 11) turn the screenshots gray with a PDF blend mode; printed or in any current PDF viewer they show without color.

miniVivisection

See your script's data in Rhino while you debug

A plug-in for the Script Editor and Grasshopper of Rhino 8

Manual · Version 0.2.0 (build 302) · 2026-10-20

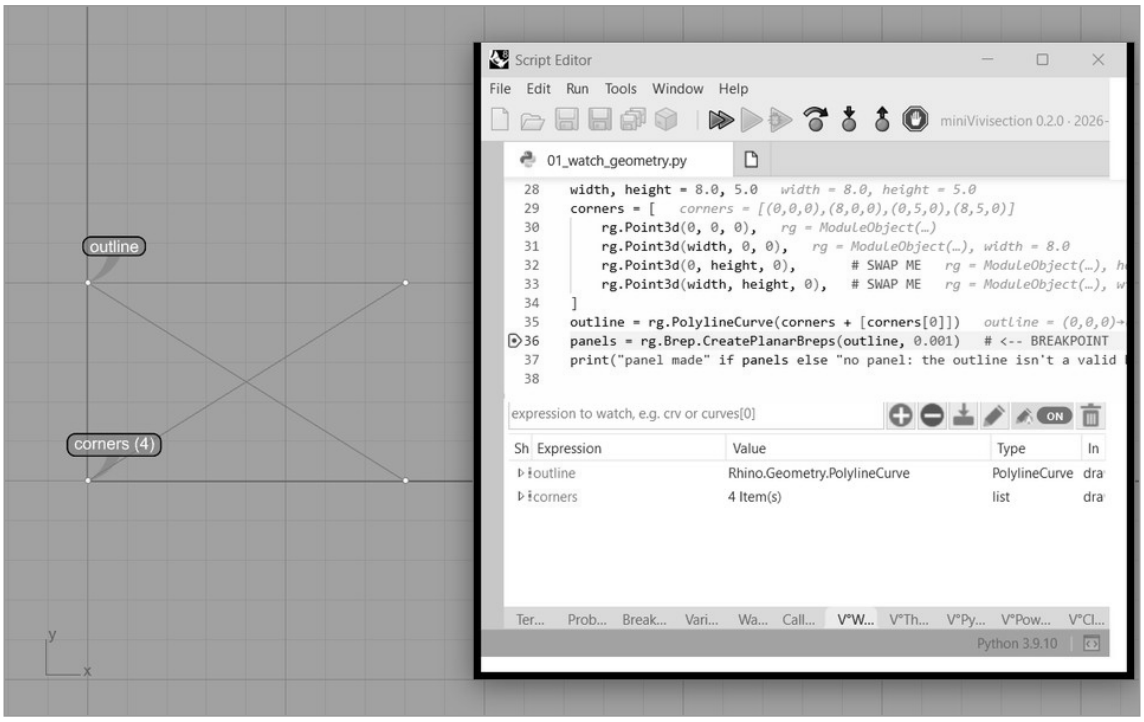

A paused script's `outline` and `corners` drawn in Rhino's Top view, each with its name: the outline crosses itself – two corners are swapped.

PLATE I.

miniVivisection

or, the Anatomy of a Paused Script

a. The left limb, where values are drawn in the viewports (V°Watch). *b.* The apex, where the script is held at a breakpoint and opened. *c.* The mark, a watch's name dot. *d.* The right limb, where geometry is edited and handed back (V°Edit).

Fig. 1. — The V° of miniVivisection, laid open. See your script's data in Rhino while you debug.
